

To whom it may concern;

June 16, 2008

Doctor Angeline-Diep Lam has been my and my wife's dentist for the 3 years we lived in Sacramento. She has provided us the utmost in care, not just in the highest professional service, but also in the most personal way.

We have both benefited from Dr. Lam's technical expertise in temporary, provisional and permanent procedures. This includes crowns, bridges and implants. Her attention to the finest detail has been nothing short of amazing. The intricate models she has fabricated of our bite has allowed her to study the exact procedure to be performed and to virtually guarantee a predictable and successful outcome.

You can see from her waiting room that this is not next-in-line dental care. She allocates enough time to account for overtime situations. Next you will notice that she genuinely cares for you and your situation, whether that be insurance, out-of-pocket costs or simply cosmetic, she strives to tailor her work to fit you. She has always followed up after the more difficult procedures to make sure that we're O.K.

In summary, I have no hesitation to heartily recommend Dr. Lam's services for you and your loved ones.
