

To Whom This May Concern:

I have been a patient of Dr. Lam's for the past ten years, and have been extremely pleased with Dr. Lam's techniques, responsiveness to my needs as her patient, and her honesty.

Dr. Lam has taken care of all my dental needs which has been crowns, fillings, gum grafts, and my TMJ problem. I had experienced pain in my ears, upper and lower jaws continuously for quite some time. This pain would travel and sometimes settle in one area. Which would make me think it was a problem with a particular tooth. My pain did get to a very painful point making it very hard to even sleep at night. After Dr. Lam treated me for TMJ I felt relief right away. After wearing the device made to treat this problem for two weeks my pain was 99% removed. After approximately two and a half weeks my pain was 100% removed. I am pain free now of a problem that I thought would never go away, especially the ear pain. When I do feel a little pain coming back or when I am in a time of stress I rely on my TMJ device and I am pain free again!

I have never met a dentist as efficient and caring and knowledgeable as Dr. Lam. She takes time out of her own busy days to continue to upgrade her techniques, and to learn new skills. We are very fortunate to have Dr. Lam in our community.

Sincerely,
