

To whom it may concern,

Dr. Angeline Lam has an excellent dental practice conveniently located at L Street close to Sutter General Hospital. She is a caring dentist who has given a superb service to my family and me. Before any procedures, she always takes her time to discuss and explain clearly the indications and alternatives to her patients. She has excellent procedural skills and is well liked by her patients. I recommend her service without any reservation should you need any dental work.

Sincerely,

Ronald Hsu, M.D., FACP, FACG
